To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I have had a very difficult time with over the counter estrogen and progesterone products. I have migraine headaches that were greatly aggravated by these products. Since I have been using a formulating pharmacy and their natural products of estrogen and progesterone I have felt 100% better. Please don't take that option away from me.

I'm sure there are many other people that feel the way that I do. Not everyone can take over the counter prescriptions.

Thank you for your consideration.

Sincerely,

Carolyn Tuttle
